Today’s businesses and consumers are under greater threat than ever from cybercrime and malware. For those seeking the ultimate in protection and peace of mind, the security software from G DATA offers typical German standards of thoroughness and high quality.

OUR SECURITY SOFTWARE SOLUTIONS

Whether you are a home user or a business, large or small, you can enjoy all the benefits of German Sicherheit around the globe.

At home: Easy to install and operate, our solutions offer excellent performance and comprehensive protection for computers, laptops, tablets and mobile devices operating on Windows, Mac OS and Android platforms. We protect your data and identity from any attack on these devices or on your home server.

The software’s reliable, proven protective mechanisms will defend you against viruses, trojans, worms, backdoors and other cyber threats. There are optional modules for backups and for parental control, as well as an advanced browser protection function that prevents manipulation during online banking and shopping.

In your business: G DATA solutions answer every challenge, providing reliable, up-to-date protection against malware attacks and other risks arising from digital networking. Your most valuable assets - your employees and your intellectual property - are kept safe by us, allowing your business to take full advantage of new developments in, for example, mobile device technology.

Our range of technologically advanced products, can be tailored precisely to your needs. G DATA provides user-friendly client management to ensure a quick and easy start. Optional modules such as those for patch management, backup and mail security complete the customization.
WHY CHOOSE G DATA?
As pioneers in the field of antivirus software, we have been dealing with digital threats for over 29 years. Our security experts, the G DATA SecurityLabs (located in Bochum, Germany), are gathering information, evaluating new cyber threats and developing solutions to proactively fight against cybercrime.

Being a German company, we are able to deliver more than security: we provide consumers and enterprises with peace of mind. The strict German privacy protection laws guarantee us no interference from intelligence agencies of any kind.

THE WINNER - TIME AFTER TIME
Our products set the highest security standards globally. In the AV Comparatives tests, held twice a year, G DATA has regularly achieved the best malware detection results of all products compared since 2007. In comparison tests by Stiftung Warentest, a well-respected German consumer organisation and foundation, conducted seven times between 2005 and 2014, G DATA INTERNET SECURITY has consistently demonstrated better virus detection than its competitors. Internationally, G DATA has been awarded the title of ‘Best Internet Security Product’ by independent consumer magazines in countries including Australia, Austria, Belgium, France, Italy, the Netherlands, Spain and the USA.

ALWAYS THERE FOR YOU
G DATA customer service and support staff are ready to take calls 24/7, from both home and business customers. Local and Freecall lines, along with e-mail, allow quick and inexpensive contact.

You can rely on us to respond to every emerging technological challenge, maintain high malware detection rates and provide exceptional levels of support. Easy to install and use, our products offer comprehensive protection and have proven their performance through multiple awards and comparison test successes.

With G DATA you are, quite simply, choosing GERMAN SICHERHEIT.
